

REGISTRATION CHARGES

Registration Fee	Early bird	Regular
Students		
Indian	₹ 4000	₹ 6000
Foreign	\$ 70	\$ 90
Faculties / scientists		
Indian	₹ 5500	₹ 7000
Foreign	\$ 100	\$ 170
Industrialists		
Indian	₹ 9000	₹ 11000
Foreign	\$ 200	\$ 300
Accompanying Person		
Indian	₹ 2000	₹ 2000
Foreign	\$ 50	\$ 50

IMPORTANT DATES TO REMEMBER

Abstract Submission Deadline	: June 10, 2026
Abstract Acceptance Notification	: June 20, 2026
Registration Starts	: June 21, 2026
Registration Deadline	: July 20, 2026
Full Paper Submission Deadline	: June 10, 2026
Full Paper Acceptance Deadline	: June 20, 2026
Camera-ready Full Paper Submission Deadline	: July 15, 2026

OVERVIEW

6th International Conference on Current Trends in Materials Science and Engineering 2026 (CTMSE 2026), organized by the Department of Basic Science and Humanities, Institute of Engineering & Management, Kolkata will be held in Hybrid mode from 25th September 2026 to 27th September 2026 at Software Technology Parks of India, Salt lake Sector V, Kolkata. After the successful execution of CTMSE 2018, CTMSE 2019, CTMSE 2021 and CTMSE 2022, CTMSE 2026 is to bring together innovative academicians and Industrial Experts in the field of Material Science and Engineering.

ABOUT US

The Department of Basic Science and Humanities at the Institute of Engineering & Management in Kolkata, India, is organizing CTMSE 2026. It will take place in a hybrid mode from September 25 – September 27, 2026. The goal of CTMSE 2026 is to bring together cutting-edge academics and industry specialists in the area of Materials Science and Engineering. The conference will cover developments in the following areas: Computational Materials, Smart Materials, Graphene and other 2D Materials, Carbon Nanostructures and Devices, Semiconductor Devices, Magnetism and Spintronics, Nanomaterials and Nanotechnology, Multifunctional Materials, Polymers, Composite and Ceramic Materials, Environmental and Green Materials, Nanobiotechnology and Nanomedicine, IOT and Robotics, and Artificial Intelligence in Materials Discovery. The conference hopes to showcase the research and technological prowess of scientists and technocrats. The goal of this conference is to bring together the top researchers from across the world. Distinguished speakers will provide talks and keynote lectures in addition to presenting scholarly papers and contributing posters. We hope that our international conference 'CTMSE 2026' will be a valuable learning opportunity and enriching experience for all attendees. The conference's official language is English. We welcome submissions of papers. Submissions of conference papers will be considered for inclusion in the Conference Abstract Booklet. Only chosen full-length papers submitted after peer review and conference presentation will be published in the Scopus indexed Conference Proceedings.

CONFERENCE THEME

With a focus on nanomaterials and nanotechnology, semiconductor devices, graphene and other 2D materials, smart materials, carbon nanostructures and devices, magnetism and spintronics, multifunctional materials, polymers, environmental and green materials, nanobiotechnology, nanomedicine, computational materials, composite and ceramic materials, IOT and robotics, AI in materials discovery, CTMSE 2026 aims to bring together academicians, scientists, professionals, engineers, and industrialists all from around the world on a single platform. This conference is anticipated to draw a large number of eminent scientists and researchers from across the globe. Therefore, the conference will be a perfect global platform to learn about new developments in technology, share knowledge, concepts, and experiences, and spark fresh ideas while investigating new facets of current technology and its potential uses in the future.
